# Introduction

# Objectives

By the end of this session, CTE directors will be able to:

- articulate the importance of the local application,
- examine the Perkins budget for commonly purchased line items used, and
- prepare their 2020-21 local application for allocated Perkins Basic funds.

# Why is the Local Application Needed?

- **It is a requirement.** Each LEA submits a local application to receive allocated Perkins Basic funding.
- **It should guide CTE programs for the entire fiscal year.** The local application provides a detailed outline of what initiatives, professional development, training, purchases, and events the LEA will engage in throughout the year.
- **It is the LEA's promise to support teacher and student growth with Perkins Basic funding.** The local application should be shared with teachers to create buy-in.

# CTE Programs of Study

- To receive Perkins funds, an LEA must have **two programs of study** that include a postsecondary component.
- The programs of study that you identify for Perkins funding should be **in place over time**.
- These programs of study should **meet all 5 size, scope, and quality indicators**.
- Each middle school that is a member of a consortium must declare a program of study. These programs of study must lead into a feeder high school program of study.

# Goal Setting Guidelines

- **Must** have two goals.
- Goals **must** connect to the findings of the Comprehensive Local Needs Assessment (CLNA).
- Goals **must** be SMART: Specific, Measurable, Achievable, Relevant, and Time-bound.
- Goals and action steps **must** be based on LEA's data. Data used in determining goals should include (but are not limited to) regional or local labor market data and the Core Indicator Performance Report.
- Goals will cover the 2020-21 and 2021-22 school years.

# Making Your Goals Count

**Determine what action will be needed to complete the goal.**

When reviewing goals, ask yourself the following question: *What is the next step that would need to be taken to move toward this goal?*

**Goals should improve or innovate the work accomplished in previous local applications.** It is possible to have the same goal with increased outcomes, but action steps should reflect innovative work that will be done during the funding year.

**Review goals frequently.** While writing goals down can be a beneficial exercise, change occurs by reviewing goals on a regular basis. This is what turns goals into reality.

# SMART Goals

- ❑ **Specific** | outcome is concrete, detailed, focused, and well defined. Must be straightforward and emphasize **the required outcome**. The outcome must communicate what you want to see happen.
- ❑ **Measurable** | outcome is such that **progress can be determined**. Should encourage and motivate and will allow the LEA to determine when the outcome has been achieved.
- ❑ **Achievable** | outcome is **capable of being accomplished** based on the LEA's skills, knowledge, and resources available. Challenging, but not frustrating.
- ❑ **Relevant** | outcome must relate to **overall LEA and Perkins V** strategic and/or operational goals.
- ❑ **Time** | outcome must have a **begin date and an end date**. Interim dates for assessment may also be included.

# Specific

- Outcome is concrete, detailed, focused, and well defined. Must be straightforward and emphasize **action and the required outcome**. The work outcome must communicate what you want to see happen.
- Outcome vs. Input
  - Outcomes focus on meaningful and measurable impact over inputs.
- Non-Example: Meet with career cluster advisory councils.

# Measurable

Outcome is such that **progress can be determined**. Should encourage and motivate and will allow the LEA to determine when the outcome has been achieved.

- Encouraged to have one overall measure for the goal.
- Be bold when setting your measures.

# Achievable

- Outcome is **capable of being accomplished** based on the LEA's skills, knowledge, and resources available. Challenging, but not frustrating.
- Achievable over **two years**.

# Relevant

Outcome must relate to **overall LEA and Perkins V** strategic and/or operational goals.

- Connect to district's strategic plan/vision.
- Connect to Perkins V overall message
  - Innovate
  - Close gaps for marginalized groups

# Time

Outcome must have a **begin date and an end date**. Interim dates for assessment may also be included.

- Begin date should be in 2020-21 fiscal year.
- End date should be in 2021-22 fiscal year.
- Encouraged to have interim date at the end of 2020-21 fiscal year.

# Connecting Goals to...

## ☐ **Core Indicators of Performance**

- ☐ Must address all core indicators of performance at least one time between both goals.

## ☐ **Local Application Components**

- ☐ Must use all nine (9) components at least one time between both goals.

## ☐ **Uses of Funds**

- ☐ Must use all six (6) uses of funds at least one time between both goals

## ☐ **CLNA**

- ☐ Must connect to at least one section of the CLNA.

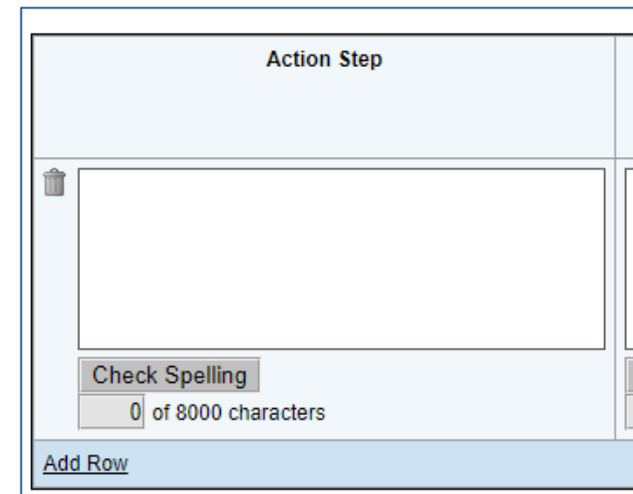

# Practice

- ❑ **Specific** | outcome is concrete, detailed, focused, and well defined. Must be straightforward and emphasize **the required outcome**. The outcome must communicate what you want to see happen.
- ❑ **Measurable** | outcome is such that **progress can be determined**. Should encourage and motivate and will allow the LEA to determine when the outcome has been achieved.
- ❑ **Achievable** | outcome is **capable of being accomplished** based on the LEA's skills, knowledge, and resources available. Challenging, but not frustrating.
- ❑ **Relevant** | outcome must relate to **overall LEA and Perkins V** strategic and/or operational goals.
- ❑ **Time** | outcome must have a **begin date and an end date**. Interim dates for assessment may also be included.

# Action Steps

What activities will take place during the 2020-21 school year that will show progress toward reaching your two-year goal?

- Each action step must be research-based and descriptive, including how it meets required components.
- The following must be addressed in action steps:
  - activities,
  - equipment,
  - use of new and emerging technology,
  - professional development, and
  - special populations.

The screenshot shows a web-based form titled "Action Step". It features a large text input area with a trash icon to its left. Below the text area are two buttons: "Check Spelling" and a character count "0 of 8000 characters". At the bottom of the form is a blue button labeled "Add Row".

# Action Steps - Timeline

When will the activity take place?

Examples:

- August-December 2020
- March-April 2021

**Do not use “ongoing” or July 2020 – June 2021 for all timelines.**

Action step timelines which target a specific timeframe will facilitate implementation and evaluation of the action step.

# Action Steps – Line Item + Amount

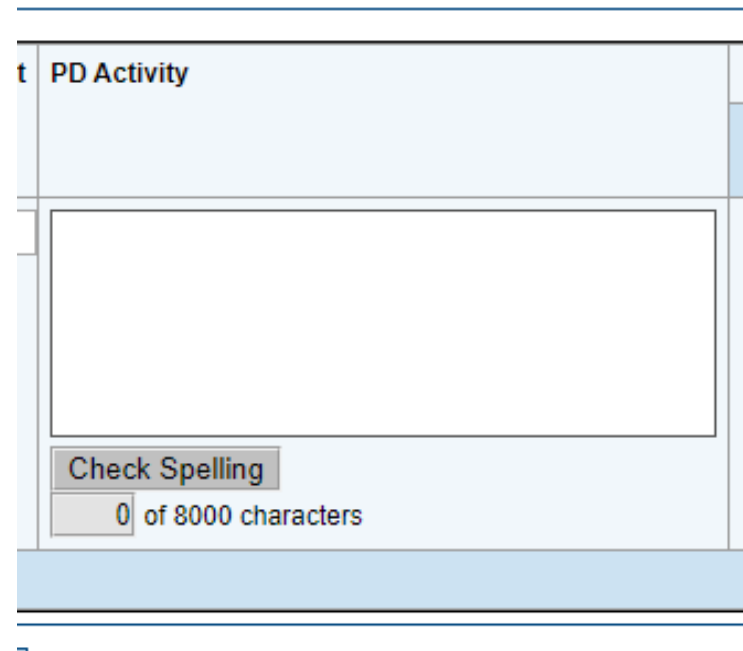

- **Line items** should match the budget line item submitted in the budget.
  - If there are multiple line items for an action step, put each line item on its own line.
  - If no Perkins funding is necessary for the action step, enter “no Perkins funds needed” for the line item.
- Indicate the **amount** of Perkins funds which will be used to implement the action step per line item.
  - Amounts should match the amount submitted in the budget.
  - If no funding is necessary for the action step, enter “0” for the action step.

Line Item(s)	Amount(s)

# Action Steps - PD

What is the professional development activity(ies) for this action step?

- Describe, using specific terms, the professional development activity to address the identified action step.
- Professional development must accompany **at least one action step** regardless of the funding required.

The image shows a screenshot of a web form titled "PD Activity". The form has a light blue header bar with the title. Below the header is a large, empty rectangular text area for input. At the bottom of the form, there is a "Check Spelling" button and a character count display showing "0 of 8000 characters".

# Action Steps – PD Audience

Who will benefit from the professional development activity?

- This can include more than those who attend the professional development activity.
- Select all audiences that will benefit from the professional development activity.

PD Audience			
Teachers	Admin / Leadership	Counselors	Paraprofessionals
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

# Action Steps – Equipment

The purchasing of equipment to improve programs should be indicated in an action step.

- Equipment should be **specific**.
  - Computers are not acceptable
  - 15 Dell laptops is acceptable
- LEAs will identify the **planned equipment purchases** by program of study, and school.

Equipment	Equipment POS and School

# Action Steps – Outcomes

What does success look like for this action step?

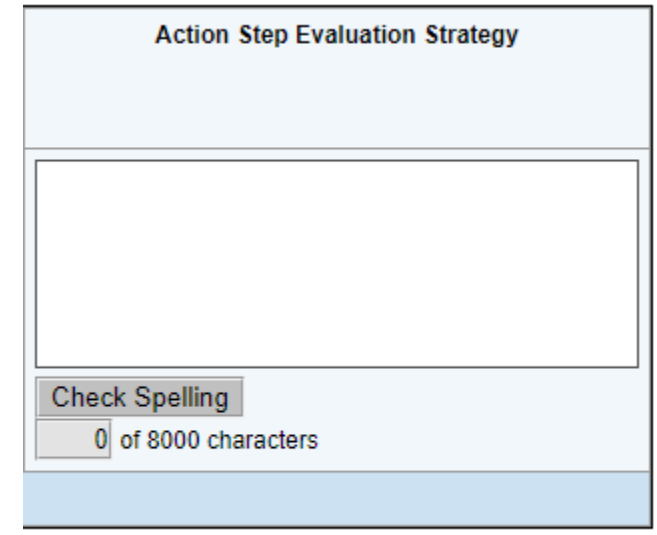

- Outcomes should **align to the goal** the action step is reinforcing.
- Outcomes focus on measurable impact.

Action Step Outcome
<div><div></div><div>Check Spelling</div><div>0 of 8000 characters</div></div>

# Action Steps – Evaluation Strategy

Questions to ask yourself as you develop the evaluation strategy:

- **Who** is responsible for evaluating the action steps progress toward success?
- **What** are you looking for to determine the action steps progress toward success?
- **What** is the impact on any, or all, of the core indicators?
- **When** will you evaluate the progress toward success?
